Harbaj

Project Description

Overview:

The RideBuddy web application is an online platform that allows users to connect with individuals who share the same excitement and dedication for running and cycling.It aims to pair people with similar locations, goals and interests to foster peer support and companionship.By doing this,the application not only encourages individuals to engage in more physical activity and be mindful of their health in an amusing manner,but also has a significant impact on the environment as more people may decide to run or cycle instead of using vehicles that produce emissions harmful to the environment.That being said,users can enjoy both personal health benefits whilst strengthening community ties and know the peace of having done good for their environment.Whether your an experienced runner or just beginning you cycling journey, GROUP NAME will find you a trusted partner.

Code of Conduct:

To ensure a smooth and productive group project experience, we will adhere to the following guidelines:

1. Respect & Teamwork

- Treat all team members with respect and professionalism.
- Actively listen to and consider everyone's ideas.
- Create a positive and supportive working environment.
- Address conflicts constructively and work towards fair resolutions.

2. Communication

- Maintain clear and consistent communication through agreed platforms
- Inform the team in advance if you are unable to attend meetings or meet deadlines.
- Ensure that messages are professional, concise, and relevant.

3. Responsibilities & Effort

- Clearly define each team member’s roles and responsibilities.
- Complete tasks on time and maintain a high standard of work.
- Keep the team informed about progress and potential challenges.
- Offer assistance to teammates when needed and ask for help proactively.

4. Integrity & Fair Play

- Adhere to academic integrity policies and avoid plagiarism.
- Give proper credit to sources and contributors.
- Do not use AI tools such as ChatGPT or any automated content generators for assignments.
- Be honest about your contributions and ensure transparency within the team.

5. Coding & Quality Standards

- Write clean, well-structured, and documented code.
- Utilise version control systems such as Git/GitHub for collaboration.
- Follow any agreed-upon coding standards and best practices.
- Thoroughly test all code before submission to ensure functionality.

6. Meetings & Deadlines

- Attend all scheduled meetings and engage actively in discussions.
- Adhere to deadlines and respect each team member's time.
- Keep track of meeting notes and project updates.
- Come prepared with progress updates and any questions.

7. Decision Making

- Make decisions collaboratively and respect the collective outcome.
- Approach disagreements constructively and professionally.
- Use logic and evidence-based reasoning to support decisions.
- Remain open to adjustments and alternative approaches.

8. Conflict Resolution

- Address issues in a respectful and professional manner.
- Avoid personal criticism and focus on finding solutions.
- Seek guidance from an instructor or mentor if necessary.

9. Workload Distribution

- Ensure tasks are distributed fairly among all team members.
- Prevent workload imbalances by regularly assessing contributions.
- Check in periodically to maintain accountability and balance.

10. Final Review & Submission

- Conduct a thorough review of all project components before submission.
- Verify that all sections are properly integrated and functional.
- Perform final testing and resolve any outstanding issues.
- Submit the project on time and confirm that all contributors are credited.

Personas:

Persona 1: Emma the Social Cyclist

- **Name**: Emma Johnson
- **Age**: 28
- **Occupation**: Graphic Designer
- **Location**: Urban area (London)
- **Fitness Level**: Intermediate
- **Goals & Motivations**:
    - Emma wants to stay in shape but also loves socializing with others while cycling. She is motivated by community and the idea of sharing experiences with others.
    - She is interested in reducing her carbon footprint and cycling instead of driving.
- **Challenges & Pain Points**:
    - She finds it hard to connect with others who have the same pace and availability.
    - She sometimes gets bored riding alone.
    - She doesn't have a lot of free time to dedicate to training, so she needs flexibility in scheduling.
- **Tech Usage**:
    - Uses fitness tracking apps like Strava but isn't very tech-savvy when it comes to complicated platforms.
    - Active on Instagram and Facebook, where she follows fitness and cycling communities.
- **Behavior**:
    - Cycles on weekends and occasionally after work.
    - Prefers connecting with a partner for longer rides but is okay with group rides or challenges.
- **Quote**: "I love cycling, but it's way more fun when I have someone to share the experience with!"

Persona 2: Tom the Beginner Runner

- **Name**: Tom Evans
- **Age**: 35
- **Occupation**: Teacher
- **Location**: Suburban area (Manchester)
- **Fitness Level**: Beginner
- **Goals & Motivations**:
  - Tom is just getting into running after realizing he needs to get healthier. His main goal is to lose weight and improve his cardiovascular health.
  - He's motivated by the idea of joining a group and finding people to help keep him accountable.
- **Challenges & Pain Points**:
  - He feels nervous about running with more experienced runners and often gets discouraged.
  - He doesn't know where to start when it comes to structuring a running routine.
  - He struggles to stay motivated without a buddy.
- **Tech Usage**:
  - Uses Google Fit to track basic activity but doesn't use any advanced apps or wearables yet.
  - He is hesitant to try apps that seem too complex or "over the top."
- **Behavior**:
  - Runs 2-3 times a week for 30 minutes, but often gets frustrated when he doesn't see immediate improvement.
  - Prefers to run with someone who can give him tips and motivation, especially for longer runs.
- **Quote**: "I really want to stick to running, but I need some encouragement to keep going, especially when I'm struggling."

Persona 3: Sarah the Eco-conscious Cyclist

- **Name**: Sarah Lee
- **Age**: 42
- **Occupation**: Environmental Consultant
- **Location**: Urban area (New York)
- **Fitness Level**: Advanced
- **Goals & Motivations**:
    - Sarah is passionate about reducing her carbon footprint and uses cycling as her primary mode of transport. She's also an advocate for sustainability.
    - She wants to connect with other environmentally-conscious individuals who share similar goals.
- **Challenges & Pain Points**:
    - It's difficult to find other serious cyclists who share her commitment to sustainability.
    - She feels like she's sometimes alone in her efforts to reduce emissions in her community.
- **Tech Usage**:
    - Uses advanced fitness tracking devices (e.g., Garmin) and regularly checks her data on Strava.
    - Very tech-savvy and comfortable with apps that track her fitness and sustainability goals.
- **Behavior**:
    - Cycles daily as her primary mode of transport, with a preference for longer routes.
    - Often looks for other cyclists to join for group rides or eco-conscious challenges.
- **Quote**: "Cycling is my way of helping the planet, but I also want to meet other people who feel the same way."

Ethical Issues:

User Privacy and Data Security:

-Users' personal data, such as profiles,Location and progress will be encrypted and shared only with user consent.

-Users will have full concern over data visibility and will have the option to delete certain aspects of their profile or the entire profile if they wish.

-A concise privacy policy will be shown as part of the sign-up process outlining usage of data and protection measures.

Safety and Harassment Issues/Prevention:

-A reporting system will allow users to report inappropriate behaviour and flag suspicious profiles.

-Set Community Guidelines will ensure a safe environment for everyone and set a standard for expected behaviors.

-Safety tips may be included to advise users while meeting with people for the first time.

Fairness and Non-Discrimination(Inclusivity and Accessibility):

-The app will ensure fair treatment for all users regardless of their gender,race,background or fitness level/experience

-Any reports or flagged behavior related to these issues will result in the user being banned from the app.
